

Alpine One – 18 months

At the beginning of 2016 we started our journey. We, means Manuela, my wife and I. Our dream was to create a company focussing on what we call the Human Factor. We had no clients, were full of ideas and energy. For us, like for each and every "Start up" the beginning was' nt that easy as expected (well, being honest, we knew that it wld be tough). We went through moments of frustration and celebrated every tiny little success. We never gave up. And we made it. Today we are a Team of 7. We currently have more than 200 executives of multinational companies in our programs/trainings on Leadership Development, Effective Client Management and Sales. We work on Change Management Projects as well as Health Management Programs. We do Talent and Executive Coachings. In 2018 we will perform the first cross Company Talent Development Program. Location will be where we live. In the Bavarian Alps. It' s still a tough Business, a lot of work, but we are moving forward. And we do live our dream. Every day. As most of you know, we have decided to donate parts of our profit to social activities. Last year we supported a hospital in Munich, to improve the treatment of children suffering from cancer. We will keep you posted what kind of activity/initiative we will support end of 2017. We do this because we believe that sharing and giving something back is important for our society. Pls contact us in case you are interested in what we do and how we work. All the best and many thanks for your support, Manuela and Franz

Alpine One – The Human Factor Company
